

# AutoMAX™

Greater Flexibility.  
Less Space.

## WRAP AND BASKET PACKAGING SYSTEM

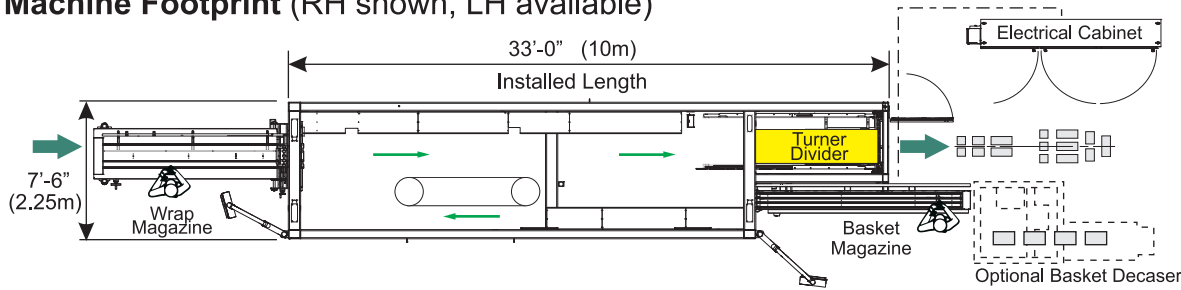

A high speed, compact system capable of producing both wraps and baskets in a variety of styles. Developed from a combination of two proven GPI product lines, the MMX5 Wrap System and the AF15HS Basket System.

# AutoMAX™ Specifications

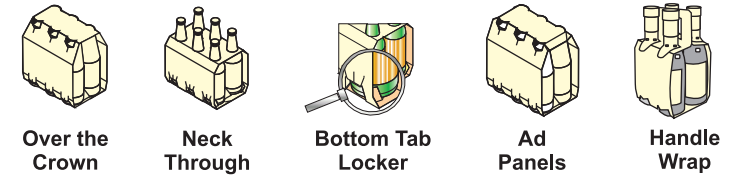

## Machine Footprint (RH shown, LH available)

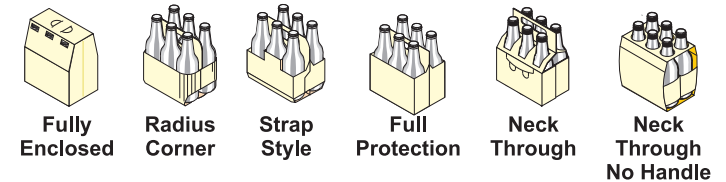

## Integrated Turn/Divide/Reject Options

## Wrap Styles 4,6,8,10,12 Pack (1x Optional)

## Basket Styles 4 and 6 Pack

## Key Features

### Flexibility

Ability to package a wide range of glass and PET bottle sizes and shapes in both wrap and basket packages.

### High Speed Packaging

Optimized full or split pitch design provides a wide range of formats and allows speeds up to 300 packs per minute.

	Pitch	Line	Surge
<b>Baskets</b>	10"	220ppm	250ppm
<b>Wraps</b>	10"	250ppm	300ppm
	20"	100ppm	120ppm

### Quick and Simple Changeovers

The AutoMAX™ features no-tool changeovers for product and carton changes and between wraps and baskets.

### Enhanced Functions

- Integrated turner divider function
- High capacity magazines
- Repitching system to achieve high pack throughput at reduced linear speeds

*The new Wrap and Basket system from Graphic Packaging combines two proven product lines into one compact solution to provide the speeds and flexibility our customers require.*
